## CAREER OBJECTIVE

I am an experienced and ambitious web developer seeking an opportunity as a front-end developer. Detail-oriented professional with a master's degree in computer science and 6 years of experience in Wipro as a project engineer. Pursuing front-end developer roles so I can use my specialized SEO and debugging skills.

## EXPERIENCE

### Wipro, Chennai – Project Engineer

May 2018 – PRESENT

- I analyze and update data in a database used for development.
- For most data updates, we use our own client tools (Upoint). When we receive large amounts of data, updating in tooling takes too long, therefore we utilize SQL queries to update it.
- I used to respond quickly to problems during critical periods, such as the day before data migration. This greatly benefited the developers in completing their tasks on time rather than waiting for the data to migrate next month.
- I used to assist other teams in moving code files from SVN to Bitbucket (cloud service).
- Along with this, I worked with a front-end development team to update the UI components.
- With the skills I gained from this team and their guidance, I created a React Progressive Web App (PWA) for my team utilizing HTML, CSS, JS, and ReactJS that generates SQL queries automatically in minutes rather than hours or days when done manually.
- Used to manage JIRA tasks and generated a few dashboards to manage the tasks that our team receives.
- I have managed a few projects, provided estimated completion times, and successfully completed them with my team.
- This tool enabled our team to produce queries 90% quicker and update data nearly 100% error-free.
- As I worked in US times, I used to be in direct contact with clients to convey properly when certain crucial issues occurred that needed to be fixed overnight.

## PERSONAL PROJECTS

### Upoint-SQL Query Builder – Alight Solutions

July 2022 – Dec 2022

- This is a React Progressive Web App (PWA) that I developed to minimize my team's work by generating SQL queries automatically.

## TECHNICAL SKILLS

- Core Java
- HTML
- CSS
- JavaScript
- SQL
- React JS
- Redux
- Tailwind CSS
- Bootstrap
- Material UI
- GitHub
- JIRA
- User Interface & Responsive web Development

## SOFT SKILLS

Collaborative | Creativity | Problem-Solving | Effective Communication

## EDUCATION

### BITS Pilani, India. — M.Tech

May 2019 – Nov 2022

- ❖ Software Engineering/ Computer Applications
- ❖ Aggregate: 76%

### SVU Tirupati. — BSc

Jun 2015 – May 2018

- ❖ Electronics and Computer Science
- ❖ Aggregate: 85%

## CERTIFICATIONS

- ❖ JAVA certified
- ❖ HTML Certification
- ❖ JavaScript Certified

- > This is a real-time project which clients are using.
- > HTML | CSS | React JS | Bootstrap .
- > [Live Site](#)

## CreativeCreatures - My Business Website

Jan 2023 - Jan 2023

- > This is my business website, CreativeCreatures where I provide digital wedding invitation videos and E-cards.
- > It also allows folks to know about my business and let people see my sample works and contact me through the social media accounts listed on the site.
- > HTML | React JS | Tailwind CSS | Ripple UI .
- > [Live Site](#)

## KnowMe - my personal portfolio

Nov 2022 - Dec 2022

- > This is my personal portfolio website which lets people know about me and my expertise.
- > HTML | React JS | Tailwind CSS.
- > [Live Site](#)

## MENTORSHIP

- ★ During the lockdown, I tutored 11 students (my juniors) using my expertise in Java programming and experience in the IT business while working from home.
- ★ This aided them in clearing their assessments and prepping for the interview.

## ACHIEVEMENTS

### Desperate Developer— Alight

Because I adore web development, I created a project for my team that automatically generates SQL queries in minutes rather than hours or days when done manually in a more efficient way.

## INTERESTS

Coding | Writing | Video Editing | Cooking | Travelling | Learning Languages | Cycling

## LANGUAGES KNOWN

Telugu | English | Tamil | Kannada | Hindi

## FEEDBACK BY CLIENT

### Brenda Novak(Manger from Alight)

I have enjoyed working with Hari at Alight. He has been flexible with his time to work U.S. daytime hours when we were needing someone to be available. He has very good communication skills. He helped brainstorm and provide alternate suggestions when we were working through some unusual data situations. He is continuing to expand his knowledge and skills regularly. ([Link to Feddback](#))
