Harinath G

Web Developer

I am a desperate developer who is looking for an opportunity to achieve big goals in my career and improve my expertise time-to-time. I describe my capability in my own one sentence as '*I am not the best today, but I am better than yesterday*'.

WORK EXPERIENCE

Software Developer
Wipro Technologies

05/2018 - Present   *Chennai, India*

Achievements/Tasks

- I assist developers in updating data in a database used in application development.
- To obtain the intended outcomes, data should not only be updated, but also analysed before being added into a database.
- I use UNIX to migrate code repositories from SVN to Bitbucket, which is maintained in the cloud like GitHub.
- I created my own tool to assist my team in automatically generating SQL queries for data updates.
- I volunteered for events such as assisting HR in the interview process and clearing up any misconceptions regarding Wipro life for new employees.
