CARRER OBJECTIVE

Experienced and ambitious web developer seeking an opportunity as a front-end developer. Detail-oriented professional with a master's degree in computer science and 4.8 years of experience in Wipro as a project engineer. Pursuing front-end developer roles so I can use my specialized SEO and debugging skills.

EXPERIENCE

Wipro, Chennai – Project Engineer

May 2018 – PRESENT

- ➤ I analyze and update data in a database used for development.
- ➤ For most data updates, we use our own client tools (Upoint). When we receive large amounts of data, updating in tooling takes too long, therefore we utilize SQL queries to update it.
- ➤ I did find out solutions to do the manual work 30% faster than previous regular methods.
- ➤ I developed a React Progressive Web App(PWA) using HTML, CSS, JS & ReactJS for my team, which creates SQL queries automatically in minutes rather than hours or days when done manually.
- ➤ This tool enabled our team to produce queries 90% quicker and update data nearly 100% error-free.
- ➤ I completed my task 1 or 2 two days ahead of the developer's planned deadlines.
- ➤ I used to respond rapidly to difficulties during important moments, such as the day before data migration. This really aided the developers in completing their job on time rather than waiting for the data move next month.
- ➤ My work hours were 100% flexible, and I used to assist other teams in moving code files from SVN to Bitbucket (cloud service).

PERSONAL PROJECTS

Upoint–SQL Query Builder – Alight Solutions

July 2022 – Dec 2022

- ➤ This is a React Progressive Web App (PWA) that I developed to minimize my team's work by generating SQL queries automatically.
- ➤ This is a real-time project which is being used by clients.

TECHNICAL SKILLS

- ➤ Core Java
- ➤ HTML
- ➤ CSS
- ➤ JavaScript
- ➤ SQL
- ➤ React JS
- ➤ Redux
- ➤ JSON
- ➤ Tailwind CSS
- ➤ Bootstrap
- ➤ Material UI
- ➤ GitHub
- ➤ JIRA
- ➤ User Interface & Responsive web Development

SOFT SKILLS

Collaborative | Creativity | Problem-Solving | Effective Communication

EDUCATION

BITS Pilani, India.— *M.Tech*

May 2019 – Nov 2022

- ❖ Software Engineering/ Computer Applications
- ❖ Aggregate: 76%

SVU Tirupati.— *BSc*

Jun 2015 – May 2018

- ❖ Electronics and Computer Science
- ❖ Aggregate: 85%

CERTIFICATIONS

- ❖ JAVA certified
- ❖ HTML Certification
- ❖ JavaScript Certified

- ➢ HTML | CSS | React JS | Bootstrap .
- ➢ [Live Site](#)

KnowMe - my personal portfolio

Nov 2022 – Dec 2022

- ➢ This is my personal portfolio website which lets people know about me and my expertise.
- ➢ HTML | React JS | Tailwind CSS.
- ➢ [Live Site](#)

Lee-Love Calculator

June 2022 – June 2022

- ➢ This website is an online form of a childhood game FLAMES we used to play to find out the relationship between 2 persons.
- ➢ This is just a fun game that I developed to practice my web development skills.
- ➢ HTML | CSS | Bootstrap | Java Script.
- ➢ [Live Site](#)

MENTORSHIP

- ★ During the lockdown, I tutored 11 students (my junior) using my expertise in Java programming and experience in the IT business while working from home.
- ★ This aided them in passing their assessments and prepping for the interview.
- ★ Best part is all 11 members means 100% of them were able to clear their interview and landed their first job.

ACHIEVEMENTS

Desperate Developer— *Alight*

Because I adore web development, I created a project for my team that automatically generates SQL queries in minutes rather than hours or days when done manually in a more efficient way.
